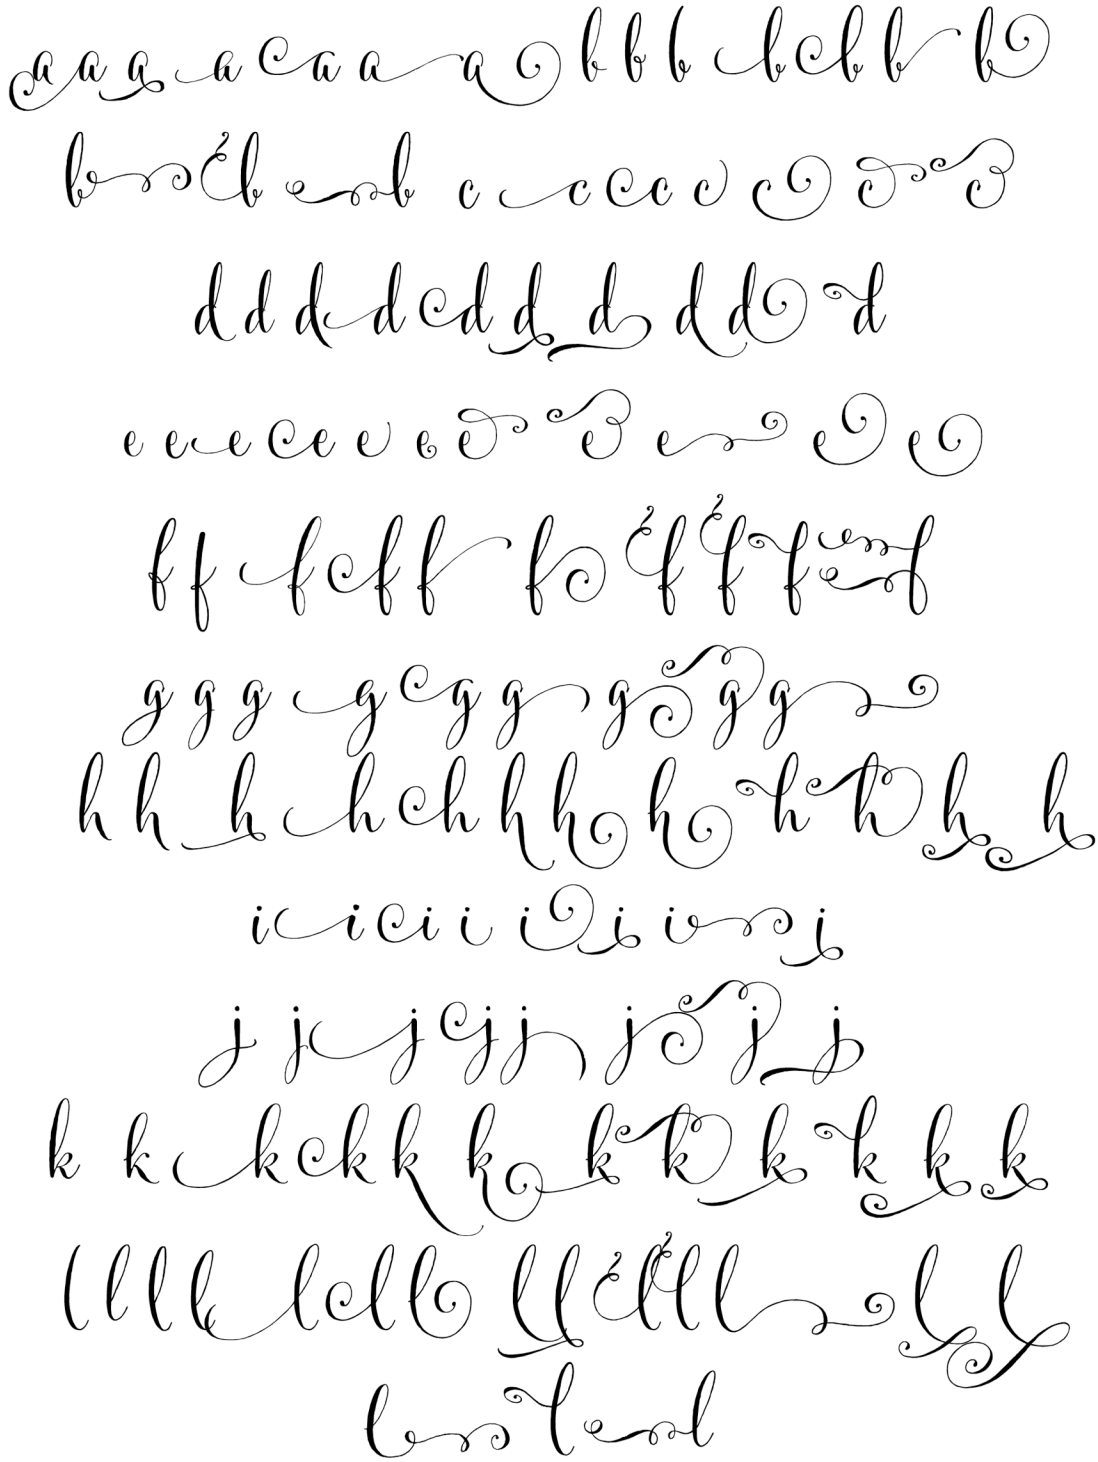
## Cantoni Pro Lower Case Alternates



©2013 All Rights Reserved. Debi Sementelli Type Foundry

Alternate letters, ornaments, flourishes and special glyphs in the Pro font are only accessable via the Swash feature or the Glyphs Panel. If you are using software that doesn't support Open Type capabilities ( Microsoft Word, Photoshop) you can allow Glyph Panel access with an application like PopChar available at http://www.ergonis.com/products/popchar.
