By selecting Proportional Oldstyle from the Open Type Window numbers change to OLDSTYLE.

By turning on Stylistic Alternatives in the Open Type Window regular numbers become ORNATE.

1 2 3 4 5 6 7 8 9

I specifically designed ORNATE numbers for Weddings and Special Events..

Use them on Invitations, Save the Dates and for Table numbers just to name a few!

My "Cantoni DIY WEDDING" font contains two versions of the word "Table" as well

as a variety of ornaments and flourishes to compliment your signage..
