## Cinque Donne Pro & Swash User Guide

# Cinque Donne Swash & Pro

A hand lettered font by Debi Sementelli.

Cinque Donne Swash & Cinque Donne Pro have all the bells and whistles! The Pro has 3370 glyphs while the Swash has 1139 glyphs. So while they have the same Open Type features, you'll find more in alternate letters in the Pro.

In programs with Open Type Capability simply turn on Standard Ligatures, Contextual Alternates, Discretionary Ligatures, Swash, Stylistic Alternates, Titling, Ordinals and Fractions and see all the goodies I made for you! Everything can be found in the Glyphs Panel but here are some other places you can find these items.

If you are working in a cutting program or any other program that is not Open Type Capable, you can use the Character Map (PC) or Character Viewer (Mac) to access the alternate glyphs. Go to the FAQ page on my website for links with instructions: <http://debisementelli.com/faqs/>
